

From
Mom
to
Monet

If it is worth Framing.
It's worth Registering.

Whether the art you own was created by you,
your mom or Monet, if it's worth framing
then it's worth registering.

Museums, galleries, corporate offices and
private collectors register ownership of their
original art pieces with National Fine Arts Title
Registry. Now, artists can quickly and easily
register their works, too!

1. Creates a secure, on-line portfolio for inventory
and insurance purposes
2. Documents authenticity (begins provenance)
3. Confirms price for the gallery representing
your work
4. Ensures accurate sales price when art is
transferred to a buyer
5. Enhances the value of the work
6. Provides a printable Certificate of Registration
and a Title Card Certificate that can display
your asking price
